ALL OFFICIALS

OFFICIALS' UNIFORM

All Officials in the crew must

- be dressed alike. Additionally, the Back Judge and Linesman must carry two contrasting bean bags. Bean bags can be white, black or blue but should be consistent among all crew members.
- wear the Football 2-inch stripe collared shirt (short or long-sleeve) with TSSAA logo and the American Flag on each sleeve.
- wear black pants with the 1 ¼" white stripe and black socks.
- wear black athletic shoes with black laces. Some white accents are permitted.
- wear the Official black hat with narrow white piping, with the exception of the Referee. The Referee will wear the white hat with TSSAA embroidered on the front. All hats must be fitted.
- wear a black belt 1-1/4" to 2" wide with a plain buckle.
- wear black undershirts, **if** undershirts are worn. Undershirts cannot show at the collar or through the outer striped shirt or extend below the sleeves of the outer striped shirt. Turtlenecks are allowed for cold weather.
- If assigned by the local association, the ECO and PCO are required to be dressed as outlined above. **EXCEPTION:** For regular season games only, Supervisors/Assigning Officers are not subject to this requirement.

APPEARANCE AND CONDUCT

All Officials in the crew must

- be neatly groomed.
- treat players and coaches with courtesy and respect at all times.
- never use profanity or inappropriate language or gestures.
- never consume alcoholic beverages on the day of any game at any level of play prior to the contest.
- never purchase alcoholic beverages or even enter an establishment that serves alcoholic beverages while wearing a TSSAA Official's uniform.
- never use any form of tobacco product (e-cigarette or similar item) when arriving at competition site until departure.
- never degrade another TSSAA Official or make any comments about games in public or on social media.
- assume everything said or done is being monitored by the host school.

PREGAME CONFERENCE

All Officials will

- I. review the coin-toss mechanics.
- II. discuss free kicks by reviewing positions and responsibilities.
- III. review coverage during scrimmage plays.
- IV. review legal formations, running plays, positions and coverage.
- V. review forward passes, eligibility of receivers and interference.
- VI. review positions and coverage during scrimmage kicks:
 - A. First touching by kicking team.
 - B. Fair-catch situations.
 - C. Kicks out of bounds.
 - D. Kick-catching interference.
 - E. Numbering requirements.
 - F. Prerequisites for post scrimmage kick fouls and penalty enforcement options.
 - G. Field goals, including free kicks after a fair catch.
- VII. review “momentum” rule as it applies inside the 5-yard line on kicks, interceptions and recoveries.
- VIII. review correct positions for goal-line play and try.
- IX. review:
 - A. Substitution rule.
 - B. Starting and stopping the game clock and play clock.
 - C. Procedures during measurement.
 - D. Duties during time-outs and intermission between periods.
 - E. Penalizing personal and unsportsmanlike fouls.
 - F. Extending or shortening a period.
- X. review procedures for getting teams back to the field and obtaining choices for 2nd half.

SOUNDING WHISTLE

- I. The Official covering the runner will
 - A. see the ball in possession of the runner who is down or whose forward progress stopped before sounding his whistle.
 - B. sound his whistle quickly and loudly when the ball becomes dead in his area.
 - C. be the only Official allowed to blow his whistle (no echo whistle).
 - D. move in quickly to be certain all action stops on the whistle.

- E. prioritize player safety; it is his first responsibility.
- F. be alert and in position to keep the ball in view.
- G. use his bean bag to mark the dead ball spot **if** a whistle is sounded inadvertently.
- H. not have an inadvertent whistle, but **if** an inadvertent whistle occurs:
 - 1. the ball becomes dead immediately.
 - 2. the location at which the ball will be put into play and the number of the next down will be determined by the location and status of the ball when the whistle was sounded.

STOPPING AND STARTING THE GAME CLOCK

- I. All Officials should stop the game clock (S #3) twice when:
 - A. the down ends following a foul.
 - B. an Official's time-out is taken.
 - C. a charged or TV/radio time-out is granted.
 - D. the period ends.
 - E. the ball is out of bounds.
 - F. a forward pass is incomplete (legal or illegal), except for the Official who signals it incomplete (S #10).
 - G. any unusual delay occurs such as "digging out" a fumble.
 - H. a fair catch is made or awarded.
 - I. an obvious first down has occurred.
 - J. the down ends following a change of possession during the down.
 - K. a fourth down play has ended.
 - L. a free kick has ended.
- II. An Official's time-out requires the game clock to be stopped when the ball becomes dead. An Official should stop the game clock (S #3) followed by tapping his hands on his chest twice:
 - A. when there is a measurement for a possible first down.
 - B. when captains and coaches are notified of time remaining.
 - C. when a player appears to be injured.
 - D. when a player is in need of equipment repair.
 - E. to dry or change the ball after the ball had been spotted.
 - F. for unusual heat or humidity which may create a health risk to the players.
 - G. for any other reason relating to the administration of the game.

- III. The following are situations for starting the game clock:
 - A. Unless the game clock will start on the snap by rule, the game clock will start on the Referee's silent wind (no whistle) signal (S #2) following a first down inbounds. The Referee is not required to come to the line of scrimmage to give this signal.
 - B. The game clock will start on the ready-for-play signal (S #1) followed by the game clock wind signal (S #2) - two different signals - if the game clock was stopped:
 - 1. for an Official's time-out.
 - 2. for a dead ball foul.
 - 3. for an inadvertent whistle.
 - C. If the game clock starts on the snap, no visible signal to start the game clock is given.
 - D. The game clock will start on a free kick when the ball is touched other than first touching by the kicking team, and the covering Official signals the game clock to start (S #2) twice.
 - E. If signal to stop the game clock (S #3) is erroneously given, restart the game clock immediately (S #2) upon discovery of the error.
- IV. If the ball becomes dead near the sideline inbounds and a first down is gained,
 - A. the covering Official will:
 - 1. use normal coverage
 - 2. give one signal to indicate the game clock would normally continue to run (S #2) because the ball became dead in the field of play and then stop the game clock with the time-out signal (S #3) twice to indicate the line to gain was reached.
 - B. the Referee will start the game clock with a silent wind (no whistle) signal (S #2) when the Umpire is inside the hash marks with the ball, unless he receives a signal from the Back Judge that the ball was not ready for play with at least 25 seconds remaining on the 40-second play clock, in which case the Referee will direct the play clock to be re-set to 25 seconds (with a pumping motion with one arm with a flat palm pointed upward) and follow the 25-second play clock procedure. If the game clock is running when the play clock is re-set, the game clock will not stop unless the Referee deems there has been a delay in re-setting the play clock.
- V. When a forward fumble goes out of bounds between the goal lines:
 - A. the covering Official will drop a bean bag at the spot of the fumble, stop the clock (S #3) and notify the Referee the ball will be returned to this spot.

- B. the Referee will start the game clock with a silent wind (no whistle) signal (S #2) when the Umpire is inside the hashes with the ball unless there is a change of possession.

STARTING THE PLAY CLOCK

- I. The play clock will be set to 40-seconds and started after scanning the field to ensure no penalties when:
 - A. the ball is declared dead in field of play on a play from scrimmage and the covering Official raises his open hand (S #7).
 - B. the covering Official gives a time-out signal (S #3) to indicate the line to gain has been reached.
 - C. the covering Official gives a wind signal (S #2) followed by a time-out signal (S #3) to indicate the line to gain has been reached close to the sideline.
 - D. the covering Official signals a pass is incomplete (S #10).
 - E. the covering Official signals to stop the game clock (S #3), because the ball is dead out-of-bounds.
 - F. when play resumes after an Official's time-out is taken, if initially related to a stoppage for injury, loss of helmet, equipment repair or a foul by a defensive player.
 - G. after the administration or declining of a defensive penalty.
- II. The play clock will be set to 25-seconds when the play clock is started:
 - A. after the administration of an offensive penalty or offsetting penalties.
 - B. when play resumes after a charged or TV/radio time-out is granted.
 - C. or the first play of a quarter or overtime period.
 - D. for a free kick or try.
 - E. when Team A retains possession after a scrimmage kick or when Team B is awarded a first down (being very deliberate to give time for ball exchange and both teams to substitute).
 - F. when play resumes after an Official's time-out is taken for an offensive injury, an offensive player who lost his helmet, offensive equipment repair, a measurement, heat/humidity or any other reason.
 - G. when the Referee requests a re-set of the play clock because the ball was not made ready for play with at least 25 seconds of a 40-second play clock remaining. (The game clock starts on the snap unless the game clock was running when the Referee requested a re-set of the play clock.)

- 2 The game clock will start on the legal touch of a free kick.
- 3 See Rule 3-4-2,3 for Starting the Game Clock.
- 4 Includes inadvertent whistle and period extension.

FUMBLE PROTOCOL

- I. When a fumble occurs, all Officials who see the fumble must drop their bean bag at the yard line of the fumble.
- II. When a fumble occurs and there is a pile, the nearest Official needs to go into the pile and start digging to see who has possession.
- III. All other Officials need to stop the game clock and keep players from diving onto the pile.
- IV. After the Official who is in the pile determines who has the ball, the nearest Official needs to signal in the direction the ball will be going.
- V. If the team that fumbles has recovered the ball, wind the game clock and start the 40 second play clock immediately.

OFFICIALS' RADIO HEADSET PROTOCOL

- I. Crew radios with headsets are MANDATORY during all high school varsity games, including all rounds of the Playoffs and the State Championship Games.
- II. Remember most radio systems are generally not secure from the public, and you need to be careful of the language you use while speaking. DO NOT say anything you would not say over the Public Address system.
- III. The Linesman will announce the down, yard line and line to gain over the radio prior to the start of each play. Also, the Linesman will announce if a 5-yard penalty will result in a 1st down when the line of scrimmage is in the middle of the chains. The Linesman and Line Judge will communicate whether they have a legal formation and may communicate there is a covered receiver, if the signal is not used.
- IV. The ECO will announce when there are less than 2 minutes remaining in each half.
- V. Officials will key the radio when reporting fouls to the Referee, so all Officials are aware of the foul and can communicate with the coaches.
- VI. On 4th and short situations, the Referee will remind the Linesman and Line Judge to hustle in and sell a close spot and all Officials to stop the clock at the end of the play.
- VII. The Umpire will announce the eligible receivers' numbers on or near the line of scrimmage when the offense is in a scrimmage kick formation.
- VIII. The Umpire will communicate penalty enforcement via radio before marking off all penalties.

CREW COMMUNICATION SIGNALS

The following signals will be used:

- I. The Linesman or Line Judge will communicate with each other by punching backward if the outside receiver on their side is off the ball and holding until the receiver goes in motion or the ball is snapped. If either has four players on the line of scrimmage on his side of the snapper, he will pat the top of his hat with his hand to indicate a covered receiver. The Umpire will then confirm the covered receiver with the Linesman or Line Judge by patting the top of his hat.
- II. The Referee and Umpire will count the number of offensive players and verify that 5 players numbered 50-79 are on the offensive line (ineligible receivers) and signal to each other with a clenched fist that counting is complete and correct.

Team A Count	LOS	Backs	Status
12	8	4	Foul: too many offensive players
12	7	5	Foul: too many offensive players & too many A backs
11	7	4	Legal
11	6	5	Foul: too many A backs
10	6	4	Legal
10	5	5	Foul: too many A backs
9	5	4	Legal
9	4	5	Foul: too many A backs (Could also be a foul for not enough players on the LOS.)
8	4	4	Foul: not enough on LOS

- III. For Penalty Enforcement, the Umpire will communicate with the Line Judge and Linesman before marking off a penalty. When marking off the penalty the Umpire will jog off the yardage from the spot of the foul, unless the foul was outside the hash marks. If the foul is outside the hash marks, mark the penalty from the hash marks. The following signals should be used:
 - A. One finger indicates a 5-yard penalty.
 - B. Two fingers indicate a 10-yard penalty.
 - C. Three fingers indicate a 15-yard penalty.
 - D. An outstretched arm with the opposite hand to the elbow indicates a half-distance penalty.
- IV. Double Stakes
- V. Snapper Protection/Legal Scrimmage Kick Formation
- VI. Last play was out of bounds

- VII. Receiver covered up
- VIII. Backward punch
- IX. Completed catch (clutch hands to chest in catching motion)

USE OF PENALTY MARKER

- I. The penalty marker should be tucked out of sight. If the penalty marker is tucked in the front of the pants, the black-ball type is recommended.
- II. The penalty marker will be used to mark the appropriate yard line on which an Official has observed an infraction. Officials will avoid throwing penalty markers at players.
- III. Discretion, officiating position and game situation should determine whether the marker is dropped or tossed following an infraction. However, as a general rule, Officials will throw the penalty marker in the air on a dead ball foul and throw the penalty marker out to a location or spot on a live ball foul. When encroachment or a false start foul occurs, the Linesman/Line Judge will throw the penalty marker to the side of the offending team.
- IV. If an Official needs to relocate a penalty maker to the proper spot, it should be done immediately and prior to the foul being reported by picking up and placing (not tossing) on the proper spot.
- V. When an Official has a foul, he should alert the crew by sounding three sharp blasts on his whistle at the end of the play.
- VI. When a penalty marker is thrown, an Official away from the penalty marker and not involved in penalty enforcement should cover the penalty marker until the penalty is enforced.
- VII. When the Linesman/Line Judge has a penalty marker, the opposite Line Judge/Linesman will come to the hashes and mirror the dead ball spot so the penalty marker can be relocated, if needed, and the foul reported and hold until the penalty is ready to be enforced.

UNSPORTSMANLIKE CONDUCT

In determining whether an action rises to the level of an unsportsmanlike conduct foul, Officials should allow for brief, spontaneous, emotional reactions at the end of a play. However, Officials should penalize acts that are prolonged, choreographed or directed at an opponent. Examples that should be penalized without warning are as follows:

- I. Demonstrations of violence such as brandishing guns and throat slashes.
- II. Rehearsed poses.
- III. Gestures with sexual connotation.
- IV. Dunking the ball over the crossbar.
- V. Removal of helmet to celebrate or protest.
- VI. Dancing, somersaults or flips.
- VII. Intentionally spiking or spinning the ball.
- VIII. Any other act clearly intended to taunt, demean or show disrespect to an opponent.

USE OF THE HAT

- I. The hat is to be tossed to the spot where the player goes out of bounds, voluntarily or involuntarily.
- II. If voluntarily, meaning the player goes out of bounds on his own and during the down (a) returns to the field, (b) intentionally touches the ball, (c) influences the play or (d) otherwise participates, it is a penalty for illegal participation.
- III. If involuntarily, meaning the player is blocked out of bounds and returns at the first opportunity, this is legal and no foul has occurred.

USE OF THE BEAN BAG

- I. The bean bag is to be dropped on the appropriate yard line in accordance with the situations calling for such action in this manual.
- II. The bean bag is to serve as an aid to enforcement and not an absolute reference point. The bean bag is to be used:
 - A. to mark the spot of first touching by the kicking team on free kicks that have not yet traveled 10 yards.
 - B. to mark the spot of first touching by kicking team on a scrimmage kick that has traveled beyond the expanded neutral zone.
 - C. to mark the spot of possession, **if** inside the 5-yard line, for the defense or receiving team, **if** their momentum carries them into the end zone.

- D. to mark the spot of a fumble.
 - E. to mark the spot where the ball was located when an inadvertent whistle sounds.
 - F. to mark the spot of a backwards pass that occurs beyond the line of scrimmage.
- III. The Back Judge, Side Judge, Field Judge, and Umpire (The Linesman and Line Judge on short free kick situations) should have their bean bag in hand in preparation for all free kicks.
- IV. The Back Judge must carry contrasting bean bags and has responsibility for dropping a bean bag from sideline to sideline on all scrimmage kicks. A bean bag must be dropped, when the kick is returned by the receiving team, to mark the spot the kick ended. A bean bag must also be dropped to mark the spot of a catch inside the 5-yard line or first touching by the kicking team. No bean bag is needed on a fair catch or when the ball is downed or rolls dead.
- V. The Linesman must also carry contrasting bean bags to mark the spot after a first down when play is ready to start and the down mark operator is not in place.

CONTROLLING SAFETY ISSUES ON THE SIDELINE AND IN THE TEAM BOX

- I. All Officials will:
- A. consistently administer and enforce team-box and coaches' area restrictions.
 - B. be firm and professional, ensuring that restrictions are enforced so that all Officials have enough room to work.
- II. After the first restricted area violation by a team:
- A. the covering Official will drop his penalty marker for a sideline warning.
 - B. the covering Official will sound his whistle after the ball becomes dead, and report the infraction to the Referee.
 - C. the Referee will give the proper signal (S #15) and indicate the offending sideline.
 - D. the covering Official will verbally inform the coach of the warning. Communication should also include a reminder of enforcement of distance penalties for further violations.
 - E. all Officials record the time and period the warning is given.
- III. After all violations for unintentional contact with an Official and the second and subsequent restricted area violations by a team:

- A. the covering Official will drop the penalty marker, sound his whistle after the ball becomes dead, and report the infraction to the Referee.
 - B. the Referee will give the approved signals for unintentional contact with an Official (S #38, S #29, S #47) and restricted area violations (S #7, S #29, S #27, S #47). The Umpire will assess the applicable distance penalty.
 - C. the covering Official will verbally inform and remind the Head Coach when subsequent offenses will result in a 15-yard penalty.
 - D. all Officials record the time and the period that the penalty is assessed.
- IV. Unsportsmanlike conduct fouls for contact with an official, restricted area violations and equipment violations (see below) charged to the Head Coach are considered separately to force an ejection.

ILLEGAL AND IMPROPERLY WORN PLAYER EQUIPMENT

To support the safety of all participants, players must wear equipment and uniforms that are properly fitted and worn as intended by the manufacturer. Allowing players to use illegal equipment, or wear required equipment improperly, could subject the coach to a penalty.

Illegal (prohibited) equipment includes jewelry, tinted visors, non-compliant eye shade, bands on the upper arm, neck or legs and uniform adornments like towels that do not conform to the rules. Improperly worn equipment includes pants not covering the knees, tooth and mouth protectors not worn and pads not being covered by the jersey.

When play is stopped for an equipment violation prior to the snap, the covering Official will sound his whistle, signal time-out (S #3) and send the player off the field. The following procedures will then be followed:

- I. For the first offense, the player is only sent off the field.
- II. For the second offense, the Head Coach will be given a warning (S #7, S #15).
- III. For the third offense, the team will be penalized for delay of game (S #7, S #21). Also, the Head Coach will be verbally reminded that the next offense will result in a 15-yard penalty for unsportsmanlike conduct being charged to the Head Coach.
- IV. For the fourth and subsequent offenses, the Head Coach will be penalized for unsportsmanlike conduct (S #7, S#27). The Head Coach will also be ejected for the second such unsportsmanlike conduct penalty (S #47).

FIELD-GOAL ATTEMPT BY FREE KICK AFTER A FAIR CATCH OR AWARDED FAIR CATCH

Positions:

- I. Back Judge and Line Judge will be behind their upright.(5 Man Crew)
- II. Back Judge and Field Judge will be behind their upright.(7 Man Crew)
- III. Back Judge will rule on the crossbar.
- IV. Both Officials determine whether the kick is successful.
- V. The Referee will line up in the Back Judge position on a normal kick off.
- VI. All other Official mechanics are the same as a kickoff.

KEYS AND PRIORITY OF KEYS – 5-MAN CREWS

- I. In determining keys, several definitions are needed for clarification:
 - A. Strength of the formation is determined by the number of eligible receivers on a particular side of the offensive information. It has nothing to do with the number of linemen on each side of the snapper, but rather the number of eligible receivers outside the tackles. If there is no strong side, strength is declared to the **Linesman's** side.
 - B. Tight end is the end man on the line of scrimmage lined up no more than 4 yards from the nearest offensive lineman.
 - C. Back in backfield is a player in the backfield between the tackles at the snap.
 - D. Trips refers to three or more receivers outside the offensive tackle on the same side of the formation.
 - E. Balanced formation occurs when there are the same number of eligible receivers outside the offensive tackles on each side of the formation. The Back Judge will key on the widest eligible receiver to the **Lineman's** side of the formation. The **Linesman** will then key on the next widest eligible receiver. The **Line Judge** will key on the eligible(s) on his side of the formation.
 1. Example: Team A sets in a balanced formation with two tight ends. The **Back Judge** will key on the tight end (the widest eligible) to the **Linesman's** side of the formation.
 2. Example: Team A has a flanker and a tight end on the side of the formation next to the **Linesman**. The Back Judge will take flanker, and the **Linesman** will take the tight end.
 3. Example: Team A has a split end and a slot back on the side of the formation next to the **Linesman**. The Back Judge will take the split

end, and the Linesman will take the slot back. In examples 2 and 3, the Line Judge takes the eligible(s) on his side of the formation.

- F. Unbalanced formation occurs when the strength of the formation is determined by the number of eligible receivers outside of the offensive tackles. The Back Judge takes the widest eligible(s) to the strength of the formation. The Linesman or Line Judge to the strong side strength of the formation takes eligible(s) on his side. For example:

Team A has a flanker and a tight end to the Linesman's side of the formation. On the Line Judge's side there is a tight end. The Back Judge will take the flanker and the Linesman will take the end on his side of the formation. The Line Judge will take the eligible(s) to his side. If Team A sets in trips, the Back Judge will take the two outside eligible receivers to the strength of the formation. The strong side wing will take the inside eligible receiver. If the trips are stacked, the Back Judge takes the front two.

- G. The Back Judge takes the man in motion or the last man in motion.
- II. The priority of keys to determine initial assignments for each Official is as follows:
- Back Judge has the first key.
 - Line Judge and Linesman have the second key. Note: Do not key off the same player as the Official ahead of you in the priority. The Line Judge or the Linesman will not key off of the same player as the Back Judge. Normally, one wing Official will key off of the receiver on the side where the strength is not declared, and the other wing Official will be keying a strong side back.

BALANCED FORMATION

STRENGTH TO L'S SIDE

STRENGTH TO LJ'S SIDE

**TRIPS TO ONE SIDE
(THREE RECEIVERS)**

**DOUBLE WING, OR ANY FORMATION
WITH TWO RECEIVERS EACH SIDE**

**MOTION WHICH CHANGES STRENGTH
(CHANGES KEY)**

**MOTION WHICH DOES NOT CHANGE
STRENGTH (DOES NOT CHANGE KEY)**

KEYS & PRIORITY OF KEYS – 7-MAN CREWS

- I. The priority of keys to determine initial assignments for each Official is as follows:
 - A. Back Judge has the second key.
 - B. Field Judge and Side Judge have the first key. Note- Do not key off the same player as the Official ahead of you in the priority. The Field Judge or the Side Judge will not key off of the same player as the Back Judge. Normally, one deep Official will key off of the receiver on the side where the strength is not declared, and the other wing Official will be keying a strong side back.
- II. Balanced formation: When there are the same numbers of eligible receivers (2) outside the offensive tackles on each side of the formation, the Back Judge will key on the second eligible receiver to the Linesman's side of the formation. The Side Judge will key on the widest eligible receiver. The Field Judge will key on the widest eligible on his side with the Line Judge keying on the 2nd eligible on his side.
 - A. Example: Team A sets in a balance formation with two tight ends. The Field Judge will key on the tight end (the widest eligible) to the Line Judge's side of the formation, and the Side Judge will key the tight end (the widest eligible) to the Linesman side of the formation.
 - B. Example: Team A has a flanker and tight end on the side of the formation next to the Linesman. The Back Judge will take the tight end, and the Side Judge will take the flanker.
 - C. Example: Team A has a split end and a slot back on the side of the formation next to the Linesman. The Side Judge will take the split end, and the Back Judge will take the slot back. In both examples, the Field Judge and Line Judge take the eligible(s) on their side of the formation.
- III. Unbalanced formation: The strength of the formation is determined by the number of eligible receivers outside of the offensive tackles. The Back Judge takes the 2nd eligible to the strength of the formation. The Field Judge/Side Judge to the strong side strength of the formation takes the widest eligible on his side.

Example: Team A has a flanker and a tight end to the Linesman's side of the formation. On the Line Judge's side there is a tight end. The Side Judge will take the flanker and the Linesman will take the end on his side of the formation. The Field Judge will take the eligible(s) to his side. If Team A sets in trips the Field Judge/Side Judge will take the widest eligible receiver and Back Judge will take the 2nd eligible to the strength of the

formation. The strong side Linesman or Line Judge will take the 3rd eligible receiver. If the trips are stacked let the receivers declare which direction they go.

- IV. Motion: **if** motion occurs, the strength of the formation is not determined until the snap. Keys may change with motion.

Example: Team A sets in a formation with a flanker and a tight end on the Linesman's side and the tight end on the Line Judge's side. The Back Judge initially takes the tight end, the Side Judge initially takes the flanker and the Field Judge initially takes the tight end on his side. If the flanker goes in motion, his position at the snap will determine if the original keys change. In this example, the flanker gets past the tight end on the Line Judge's side at the snap. The Back Judge then switches to the tight end on the Line Judge side and the Field Judge will switch to the flanker side. The Side Judge will switch to the tight end side. If the flanker is behind the tight end at the snap, the Back Judge will stay with the flanker (motion man) and the Field Judge will stay with his original key, the tight end.

REVERSE MECHANICS FOR 7 MAN CREWS

- I. Reverse mechanics occur when there is a change of team possession and a return.
- II. The Field Judge and Side Judge will:
 - A. cover the sideline in the restricted area and check for illegal blocks.
 - B. sound his whistle when the ball becomes dead in his area.

 - D. get the forward progress spot, **if** the ball is downed inside the 2-yard line.
 - E. move quickly and directly into the out of bounds area to observe, clean up any action and retrieve the ball, **if** the play goes out of bounds on his side.

5 MAN CREW REFEREE

GAME WEEK PREPARATIONS

- I. During the week of the game, the Referee will:
 - A. contact the Athletic Director (or other Administrator) of the host school to verify game time, obtain location of Officials' parking and locker room, and inquire about any special events occurring prior to or during the game or any other unusual circumstances at game site. Request that members of the chain crew and ball boys wear distinctive vests or shirts to be easily identified, if possible.
 - B. if unfamiliar with game site, obtain information regarding location of team dressing rooms to determine if crew should be prepared to prevent the teams from crossing paths entering and leaving the field.
 - C. confirm the Administrators' Meeting will be held immediately after the pregame conference with both Head Coaches, approximately 30-minutes prior to game time.
 - D. contact crew members prior to game day to advise them of the meeting time for travel departure site or the game site and any additional information with respect to the game provided by the host school.
 - E. establish the pregame meeting time, and all Officials will arrive not less than 5-minutes prior to the scheduled time.
- II. Upon arrival at the game site, the Referee will conduct a pregame meeting with the crew from a printed outline.

PREGAME COACHES CONFERENCE

The Referee will:

- I. have the crew enter the field together, not less than 45-minutes prior to the scheduled kickoff time.
- II. deliver the list of Officials to each Head Coach, starting with the home team.
- III. ask the Head Coach to verbally verify, in presence of all crew members, that all players are legally equipped and in compliance with NFHS rules.
- IV. obtain captains' numbers and advise that captains are needed 5-minutes prior to the scheduled kickoff. Circle the number of the speaking captain as determined by the Head Coach.
- V. check with each Head Coach for any unusual plays, shifts, or formations.

- VI. secure names of coaching staff personnel who will be responsible for sideline safety control of team members and report this information to all Officials.
- VII. secure names of coaching staff personnel designated to call time-outs in absence of Head Coach.
- VIII. verify where teams will be before the game and at half time.
- IX. verify with each Head Coach the preferred choice if his team wins the toss.
- X. inquire about any clock problems with home team Head Coach.
- XI. verify that the home team has the chain crew, and both teams have ball personnel and game balls.
- XII. confirm the time and place for the Game Administrators' Meeting with Head Coaches and Game Administrators.
- XIII. determine whether each team has a designated health care professional on its sideline, and verify that an emergency plan is in place.
- XIV. remind coaches no more than four captains are allowed for the coin toss.
- XV. secure the name of team's designated representative (Coach or Player) who will make decisions regarding penalty acceptance or declination and ask them to communicate decisions through Linesman and Line Judge.

FOLLOWING PREGAME COACHES CONFERENCE

The Referee will:

- I. attend the Administrators' Meeting with the two Head Coaches. The Game Administrator should identify security that will escort crew on and off the field and notify both Head Coaches of length of the halftime intermission.
- II. direct game management to remove or repair any hazards on or near the field. Ensure all tents and other team equipment are in the team box between the 25-yard lines.
- III. coordinate the inspection of playing field and pylons.
- IV. inform Head Coaches of starting time and whether the game clock will be kept on the field.
- V. inform visiting Head Coach of any change in halftime intermission (a maximum of 5-minutes either way).
- VI. give the visiting Head Coach the option of operating the chains on the press box side of the field if the home team is on the sideline opposite the press box.
- VII. keep the Official score.
- VIII. ensure the ECO instructs the game clock operator to set the pregame clock to expire at the kickoff time.
- IX. ensure the Back Judge instructs the game clock operator to time the halftime intermission. On the Referee's signal, the score board operator will set the game

clock to the appropriate time. The game clock will start on the Referee's signal to be given after both teams have left the field. When time has elapsed completely (or the Referee has signaled to reset the game clock after both teams have returned to the field), the score board operator will immediately reset 3-minutes on the game clock to time the mandatory warm-up period.

- X. ensure the Linesman, Line Judge and Back Judge secure and approve the game balls. The Linesman and Line Judge will use the assigned ball personnel if two balls will be used.
- XI. ensure the Line Judge and Linesman inform the ball personnel of the proper way and time to change the footballs between plays.
- XII. verify heat index with the Game Administrator or training staff of the home team, if appropriate.
- XIII. determine whether the PCO is an Official. If the PCO is not an Official, the Back Judge will conduct a pregame conference on operating the play clock.
- XIV. instruct the crew to maintain a presence at or near the 50 yard line while both teams are still on the field.
- XV. let the crew return to their locker room or go to another area away from the field if all pregame duties are completed and at least one team has left the field. If Officials remain on the field, they should not stretch, jog or do any other activities that would draw attention to them. All Officials must be back on the field 10 minutes prior to kickoff.

THE COIN TOSS

- I. Pregame
 - A. The Back Judge and Line Judge will secure game balls from their respective teams to bring on the field for the coin toss. They will have the team captains line up 5-minutes before kickoff. The speaking captain for each team should stand next to the Referee.
 - B. The Referee and the Umpire will jog to the center of the field 3-minutes before kickoff. The Referee will face the scoreboard.
 - C. The Referee will signal the other Officials and captains on the field. The captains will meet the Referee and Umpire in the center of field. All other Officials should stop at the hash marks facing the Referee.
 - 1. The Line Judge will come out from the press box side on the 45-yard line furthest from the game clock.
 - 2. The Linesman and Back Judge will come out from the Linesman's side on each 45-yard line. The Linesman should be on the 45-yard line furthest from the game clock.

- D. The Referee will instruct the captains to shake hands.
- E. The coin will be flipped no later than the 2-minute mark.
- F. In the presence of the Umpire, the Referee will:
 - 1. instruct the visiting captain to give “heads” or “tails” choice before the coin toss and inform the captains that if the coin is dropped it will be tossed again.
 - 2. make the toss and determine the winner.
 - 3. place a hand on the winning captain’s shoulder and have the captain choose one of the following options:
 - a) receive
 - b) defer choice to second half
 - 4. **if** the winner of the toss defers, step toward the press box and give the deferred signal (S #10) twice; then ask the deferring captain which direction they would like to kick.
 - 5. **if** the winner of the toss chooses to receive, ask the other captain which direction they would like to kick.
- G. The Referee will place the captains in position facing each other with their backs toward the goal they will defend.
- H. While facing in the same direction as the receiving captain, the Referee will signal the choice by making a catch motion to simulate receiving.
- I. The Referee will dismiss the captains.
- J. After captains are released back to their sidelines, all Officials will gather in the middle of the field to verify the coin toss information and receive last minute instructions from the Referee. After instructions are given, all Officials will jog to their positions with 1-minute remaining on the game clock.
- K. If the Home Team requests that military personnel, celebrities, etc. participate in the pregame coin toss, the actual coin toss should be held at the Administrators’ Meeting. A ceremonial coin toss will then be held as described above with the options already being determined. If the coin toss is not done prior to the game, the Referee should toss the coin.

USE OF THE MICROPHONE

The Referee's use of a field microphone adds a positive dimension to communication when used properly. The microphone should be used to explain penalties and unusual situations. The Referee should have the option to use or not use a field microphone. The Referee should have control (on/off switch) of the microphone. If used, the microphone should be tested prior to the start of the contest, and the following guidelines should be followed.

When What Team Player Penalty Next Down

- When –** Identify ONLY if it is relevant.
 For pre-snap fouls, say “Prior to the snap.”
 For a dead ball foul, say “After the play” while giving the dead ball signal. Never say “Dead ball.”
 If relevant, say “During the kick” or “During the return” or “Prior to the fumble/interception”. This is not relevant when the ball stays in possession of the offense.
- What –** Always identify the foul.
 Say “Holding”, “False start”, “Pass interference”, “Free kick out of bounds”, etc.
- Team –** Always say a team while pointing in that team's direction.
 Say “Offense” or “Defense”, “Kicking team” or “Receiving team”.
 Never announce color or team name.
- Player –** Give the number of the offending player.
 Say while still pointing in team's direction.
 If you don't have a number (do not guess) or it's not relevant (e.g., illegal participation), skip this.
- Penalty –** Always identify length of penalty and enforcement spot.
 Say 5/10/15 yards “from the previous spot”, “from the succeeding spot”, “from the spot of the foul”, “from the end of the run”, etc.
 Say “Half the distance to the goal line”, when applicable.
 Say “Penalty is declined”, if applicable.
- Next Down –** If applicable, say “Loss of down” while giving the related signal.
 Always say “(Next) down”, while holding your upper arm parallel to the ground, your forearm straight up and your fingers signaling the number. Do not hold your hand in front of your face.
 If it is a 1st down, signal while announcing.

Examples:

- “During the run, Holding, Offense #72, 10 yards from the previous spot, Replay 2nd down.”
- “After the play, Personal foul, Defense #22, 15 yards, Result is a 1st down.”
- “Pass interference, Defense #14, 15 yards from the previous spot, Result is a 1st down.”
- “Roughing the passer, Defense #89, 15 yards from the previous spot, Automatic 1st down.”
- “During the return, Block in the back, Receiving team #44, 10 yards from the spot of the foul, 1st down.”
- “Illegal forward pass, Offense #12, 5 yards from the spot of the foul, Loss of down, 3rd down.”
- “Prior to the snap, False Start, #77, 5 yards, still 2nd down.”
- “After the play, Unsportsmanlike Conduct Offense #13, 15 yards from the end of the run, 3rd down. That is #13’s first Unsportsmanlike Conduct foul.” or “That is #13’s 2nd Unsportsmanlike Conduct foul, so he has disqualified himself from the game.”

Reminders for Referees:

- Ask the calling Official to give you the foul, team and number of offending player, penalty yardage and enforcement spot, live or dead ball, and in or out of bounds.
- For both the preliminary and final signal, come to a complete stop in an area clearly visible to and facing the press box away from any players. Stand still while announcing and look at press box during entire announcement.
- Keep your head level and stationary.
- Think before you speak. Do not turn the microphone on until you have all the information you need and the words in your head.
- “Rehearse” with the Umpire to ensure you have needed information before making the formal announcement.
- Speak in a clear, unhurried and conversational tone. Do not shout; this conveys anger.
- Coordinate statements with signals.
- Do not “over explain.” You run the risk of stumbling on words. When in doubt, say less.
- If anything is unusual, have the calling Official remain close during the announcement to remind you of pertinent information.
- Use the word “correction” to change a previous announcement: “Holding, Offense #65, Correction, #56.”
- When announcing time outs, you can refer to the team name.

- For unsportsmanlike conduct fouls, always tell whether it is the 1st or 2nd for that player/coach.
- When you are finished, turn the microphone off, pause, turn and jog to your next pre-snap position.
- Practice these principles in the following ways to improve and correct any mistakes:
 - Practice in front of a mirror, while talking out loud.
 - Watch replays of your games, when possible.
 - Say the words even in games you are not using a microphone.
 - Consider using a recorder during games to review later.

DECLARING BALL READY-FOR-PLAY

- I. **If** the play clock is to be set to 25-seconds, after the ball is spotted, the Referee, will:
 - A. move to a position approximately 12-15 yards from the line-of-scrimmage and at least 5 yards wide of the tackle position in a normal scrimmage formation.
 - B. announce the down (using appropriate fingers or fist), check that the crew is ready and in position to officiate, release the Umpire off the ball and to his normal position prior to marking the ball ready-for-play and solely verify the number of offensive players **if** a quick snap is possible.
 - C. sound his whistle, give the ready-for-play signal (S #1) and give the signal to start the game clock **if** necessary (S #2) twice.
- II. **If** the play clock is set to 40-seconds after the end of the preceding play:
 - A. the Referee will move to a position approximately 12-15 yards from the line-of-scrimmage and at least 5 yards wide of the tackle position in a normal scrimmage formation.
 - B. the ball is ready for play when the Umpire returns to his normal position after spotting the ball (without a ready-for-play signal or whistle from the Referee). Unless held in position by the Referee, the Umpire does not linger over the ball.
 - C. the Referee will re-set the play clock to 25-seconds (with a pumping motion with one arm with a flat palm upward) and follow the 25-second play clock procedure **if** he receives a signal from the Back Judge that the ball was not ready for play with at least 25 seconds remaining on the 40-second play clock. The Referee will stop the game clock to re-set the play clock only if he deems there has been a delay in re-setting the play clock.

CORRECTING OBVIOUS ERRORS IN TIMING

Requisites for correcting timing errors:

- I. The timing errors must be readily evident and have resulted in an acknowledged discrepancy. The Referee may consult the ECO.
- II. Corrections must not involve judgment but result from failure, either human or mechanical, to correctly administer the timing rule.
- III. Corrections may occur if the error is discovered before the second live ball following the error unless the period has Officially ended.

COACH-REFEREE CONFERENCE

- I. Purpose
 - A. The conference allows a review of possible misapplication or misinterpretation of rules by Officials.
 - B. The conference allows corrections when an error has been made.
- II. Procedures
 - A. A request for the conference must be made prior to the ball becoming live following the play which is to be reviewed, unless the period has Officially ended.
 - B. The Head Coach calls or directs the player to request a time-out to confer with the Referee regarding possible misapplication of a rule.
 - C. The Referee grants the time-out and charges it to the requesting team.
 - D. The Referee, accompanied by the Linesman or Line Judge, and the Head Coach confer at the sideline directly in front of the team box in the field of play.
 - E. **If** the rule is determined to have been applied correctly:
 1. the time-out remains charged to the team.
 2. the foul for delay of game is called if all permissible time-outs have been used.
 3. If time permits, the Head Coach may talk to the team for the time remaining in the charged time-out.
 - F. **If** the rule is determined to have been applied incorrectly:
 1. the correction is made immediately.
 2. the time-out previously charged to the team becomes an Official's time-out.
 3. the Referee will review and explain the situation to the opposing Head Coach before continuing the game.

DISQUALIFICATION PROCEDURE

The Referee will:

- I. provide the Head Coach with the reason and while accompanied by the Linesman or Line Judge.
- II. require a disqualified player to vacate the field and remain off the field.

 - A. inform the Head Coach (or acting Head Coach) that noncompliance could lead to forfeiture.
 - B. locate the Game Administrator for assistance.
 - C. do not continue the game until the disqualified coach vacates the stadium area.
 - D. forfeit the game **if** necessary.

KICKOFF

- I. The Referee will count receiving team players and confirm with the Line Judge and the Linesman using a clenched fist to each side. The clenched fist by the Line Judge and Linesman is the ready signal indicating the sideline is clear and the Official is ready for the kickoff.
- II. The Referee will pick up the ready sign (open hand above head) from the ECO and PCO when they are in free kick positions, look for the ready sign by the Back Judge and then communicate to the Back Judge via radio to hand the ball to the kicker or signal by extending his arm toward the Back Judge with a clenched fist if radios are not used.
- III. Once the Back Judge reaches his free kick position and communicates he is ready via radio or gives the ready signal when radios are not used, the Referee will promptly give the ready-for-play signal (S #1) with a sharp blast of his whistle.
- IV. The Referee will make sure that kickers are in position before he blows the ready signal to avoid a delay of game foul.
- V. On scoring plays involving a penalty by the opponent of the scoring team, the Referee will:
 - A. give the preliminary penalty signal and indicate the offending team.
 - B. obtain the choice from the designated representative of the offended team.
 - C. give the penalty signal and indicate the offending team. **If** the penalty is accepted, the Referee will indicate if the score counts and if the penalty will be enforced on the subsequent kickoff by pointing to the succeeding spot.

The Back Judge will give the final signal prior to stepping off the penalty and prior to the subsequent kickoff.

- VI. Before the kick, the Referee will:
- be positioned on the receiving team's goal line near the middle of the field away from any deep kick returners.
 - count receiving team players.
 - check positions of other Officials.
 - declare the ball ready for play (S #1) and sound his whistle after ready signals have been received from other Officials.
 - if** a short or onside free kick is anticipated:
 - move the Line Judge and the Linesman up.
 - take position on the receiving team's goal line.
 - be alert to assist other Officials.

 - signal the game clock to start (S #2) when the kick is touched other than first touching by the kicking team.
 - pick up the runner and follow until releasing to covering Official for a kick down the middle.
 - If** the Line Judge and Linesman have been moved up the field or positioned on the receiving team's free kick line in anticipation of an onside kick and a deep kick is made, the Referee will:
 - remain on the receiving team's goal line.
 - rule on touchback while standing on the goal line.
 - be the only Official to wind the game clock on a free kick when the ball is kicked deep.
 - rule on whether the player's momentum took him into the end zone and mark the spot of the catch with a bean bag, **if** the kick is caught inside the 5-yard line and the player is downed in the end zone.
 - With a kick outside an inbounds line, the Referee will:
 - move cautiously with play.
 - observe action of other players in vicinity of the runner.
 - serve as clean-up behind, to side of and around the runner.
 - When a bean bag is thrown for first touching by the kicking team, the Referee will go near the spot of first touching, signal (S #16) and point at bean bag and determine where the receiving team will put the ball in play.

RUNNING PLAY

- I. After the ball is spotted, the Referee will:
 - A. move to a position that is visible to the ECO and the PCO (approximately 12-15 yards from the line-of-scrimmage and at least 5-yards wide of the offensive tackle) prior to the ready signal and will then adjust according to the formation. The Referee's initial position will be on the goal line when the ball is snapped from the 12-15 yard line and the end line when the ball is snapped on or inside the 12-yard line. The Referee will be positioned:
 1. on the passing arm side of the quarterback.
 2. to view tackle on opposite side and the backs.
 3. in a standing position with shoulders parallel or angled to the line of scrimmage.
 - B. declare the ball ready-for-play by using the established procedure.
 - C. make sure all players are set for the one-second count before the snap.

 - F. watch for illegal shift or player in motion.
 - G. identify eligible backs.
 - H. be alert for a Head Coach requesting a time out.
- II. After the snap, the Referee will:
 - A. key the tackle on the opposite side. If he blocks aggressively, the Referee will assume run. If he pass blocks, the Referee will assume pass.
 - B. observe the ball, runner, action around the runner, and blocks up to the neutral zone, focusing on the linemen on the opposite side. Assuming a right-handed quarterback, the Referee will have the left guard and left tackle.
 - C. move parallel to the line of scrimmage if action is not in the direction of original position, maintaining position approximately in line with runner's progress.
 - D. delay moving immediately toward the line of scrimmage to avoid hindering reverse or delayed play and assure maximum vision of play.

- E. move behind the play toward the side of the field to which the play advances to cover the runner **if** he is downed near the line.
 - F. watch for illegal use of hands by offensive players.
 - G. observe action behind the ball and away from the runner near the neutral zone.

 - K. be responsible for the runner until he crosses the neutral zone.
- III. During a dead ball, the Referee will
- A. only sound his whistle when the ball carrier is down in his area **deep** behind the line of scrimmage.
 - B. only go to the forward progress spot if he has the ball carrier down deep in the backfield. The Referee will be aware if the run ends close to a first down. Otherwise, the Referee will officiate dead ball action no closer than 5-yards from the dead ball spot.
 - C. when the ball is dead outside the numbers to his side, assist with relay of the ball to the Umpire for spotting unless a first down is gained.
 - D. when the ball is dead outside the hashes above the bottom of the numbers to his side, obtain the ball with help from the wing official or Back Judge for spotting while facing the appropriate sideline unless a first down is gained.
 - E. when the ball is dead outside the numbers to the opposite side, hustle to the opposite hash and obtain the ball for spotting while facing the appropriate sideline unless a first down is gained.
 - F. if a first down is gained, signal the game clock to stop (S #3) and then start the game clock with a silent (no whistle) wind signal (S #2) when the Umpire is inside the hashes with the ball, unless the play ended out of bounds. If the Referee need to spot the ball when a first down is gained, the Referee will signal the game clock to stop and then silent wind from the spotting position.
 - G. when a forward fumble goes out of bounds between the goal lines, start the game clock with a silent wind (no whistle) signal (S #2) when the Umpire is inside the hashes with the ball unless it was 4th down and the bean bag spot is short of a 1st down.
 - H. when the Back Judge spots the ball during the last two minutes of each half, the Referee will not start the game clock until the Umpire is in his position.

- I. extend both arms to the side and parallel with the ground, then give the next down with the fingers and confirm next down with Linesman before the down indicator is changed.
 - J. quickly check that the down marker is correct and that the rest of the crew is ready.
 - K. give the time-out signal to stop the game clock unless it is already stopped by rule, if a change of team possession has occurred.
- IV. When the offense lines up in victory formation late in a game, the Referee will move up in order to talk to the players and kill the play as quick as possible.

- II. After the snap, the Referee will:
 - A. key the block of the offensive tackle on the opposite side.
 - B. observe all blocks behind the neutral zone.
 - C. remain wider and deeper than the passer, as the passer retreats.
 - D. give special attention to contact with the passer by:
 1. continuing to observe the passer, not the flight of the ball, after the ball is released.
 2. verbally alerting defenders when the passer has released ball.
 3. adjusting position during the play to maintain the required view of the passer in the pocket.
 - E. determine whether the pass is forward or backward, when the quarterback drops back after the snap. The Line Judge and Linesman have the primary responsibility for the direction of the pass when thrown toward their sideline by the quarterback immediately after the snap or when they remain on the line of scrimmage.
 - F. be alert to observe an illegal pass and will:
 1. move to the spot of the pass to determine whether the passer's feet were in or behind neutral zone when ball was released.
 2. drop penalty marker **if** illegal, and continue to officiate.
 3. mark the spot of the pass with a bean bag **if** close and continue to officiate.
 - G. when the Umpire assumes responsibility for the quarterback, focus on all linemen for illegal blocks. If the quarterback reverses field, the Referee will reassume responsibility for him if he crosses back in front of the Umpire.

- H. when the ball is snapped from the goal line to the 12-yard line, move to and have responsibility for the goal line when the Umpire assumes responsibility for a retreating quarterback.
- I. solely be responsible for intentional grounding. Although the Referee may get assistance from the covering Official, he is the only one that drops a penalty marker.
- J. determine if the forward pass was tipped and give signal (S #11) if the pass was tipped.
- K. continue to observe action behind the neutral zone before leaving the area.

- II. After the snap, the Referee will:
 - A. turn at an angle toward the kicker.
 - B. watch for fouls behind the neutral zone, especially near the kicker.

 - D. verbally alert rusher(s) that ball has been kicked.
 - E. determine if the kick was tipped and give signal (S #11) if the kick was tipped.
 - F. observe line play after the ball crosses the neutral zone.
 - G. move downfield slowly following the kick.

- H. watch for fouls and, **if** there is a long return, be in advance of the runner and ready to rule on the touchdown and assist with forward progress near the goal line. When the runner crosses the goal line after running closely down the sideline, the Referee should look to the covering wing Official and assure the runner did not step out of bounds before giving a touchdown signal (S #5).
- I. determine from the covering Official **if** the ball was touched beyond the neutral zone and by whom.
- J. line up the Back Judge or the Line Judge from his position behind the punter by using an outstretched arm and “chopping” where the ball crossed the sideline **if** the kick goes out of bounds in flight.

- L. signal the Linesman to move the line-to-gain equipment **if** no foul occurs during the kick.

After instructions are given, all Officials will jog to their positions with 1-minute remaining on the game clock.
- K. If the Home Team requests that military personnel, celebrities, etc. participate in the pregame coin toss, the actual coin toss should be held at the Administrators' Meeting. A ceremonial coin toss will then be held as described above with the options already being determined. If the coin toss is not done prior to the game, the Referee should toss the coin.

USE OF MICROPHONE

The Referee's use of a field microphone adds a positive dimension to communication when used properly. The microphone should be used to explain penalties and unusual situations. The Referee should have the option to use or not use a field microphone. The Referee should have control (on/off switch) of the microphone. If used, the microphone should be tested prior to the start of the contest and the following guidelines should be followed.

When What Team Player Penalty Next Down

- When –** Identify ONLY if it is relevant.
 For pre-snap fouls, say “Prior to the snap.”
 For a dead ball foul, say “After the play” while giving the dead ball signal. Never say “Dead ball.”
 If relevant, say “During the kick” or “During the return” or “Prior to the fumble/interception”. This is not relevant when the ball stays in possession of the offense.
- What –** Always identify the foul.
 Say “Holding”, “False start”, “Pass interference”, “Free kick out of bounds”, etc.
- Team –** Always say a team while pointing in that team's direction.
 Say “Offense” or “Defense”, “Kicking team” or “Receiving team”.
 Never announce color or team name.
- Player –** Give the number of the offending player.
 Say while still pointing in team's direction.
 If you don't have a number (do not guess) or it's not relevant (e.g., illegal participation), skip this.
- Penalty –** Always identify length of penalty and enforcement spot.
 Say 5/10/15 yards “from the previous spot”, “from the succeeding spot”, “from the spot of the foul”, “from the end of the run”, etc.
 Say “Half the distance to the goal line”, when applicable.
 Say “Penalty is declined”, if applicable.
- Next Down –** If applicable, say “Loss of down” while giving the related signal.
 Always say “(Next) down”, while holding your upper arm parallel to the ground, your forearm straight up and your fingers signaling the number. Do not hold your hand in front of your face.
 If it is a 1st down, signal while announcing.

Examples:

- “During the run, Holding, Offense #72, 10 yards from the previous spot, Replay 2nd down.”
- “After the play, Personal foul, Defense #22, 15 yards, Result is a 1st down.”
- “Pass interference, Defense #14, 15 yards from the previous spot, Result is a 1st down.”
- “Roughing the passer, Defense #89, 15 yards from the previous spot, Automatic 1st down.”
- “During the return, Block in the back, Receiving team #44, 10 yards from the spot of the foul, 1st down.”
- “Illegal forward pass, Offense #12, 5 yards from the spot of the foul, Loss of down, 3rd down.”
- “Prior to the snap, False Start, #77, 5 yards, still 2nd down.”
- “After the play, Unsportsmanlike Conduct Offense #13, 15 yards from the end of the run, 3rd down. That is #13’s first Unsportsmanlike Conduct foul.” or “That is #13’s 2nd Unsportsmanlike Conduct foul, so he has disqualified himself from the game.”

Reminders for Referees:

- Ask the calling Official to give you the foul, team and number of offending player, penalty yardage and enforcement spot, live or dead ball, and in or out of bounds.
- For both the preliminary and final signal, come to a complete stop in an area clearly visible to and facing the press box away from any players. Stand still while announcing and look at press box during entire announcement.
- Keep your head level and stationary.
- Think before you speak. Do not turn the microphone on until you have all the information you need and the words in your head.
- “Rehearse” with the Umpire to ensure you have needed information before making the formal announcement.
- Speak in a clear, unhurried and conversational tone. Do not shout; this conveys anger.
- Coordinate statements with signals.
- Do not “over explain.” You run the risk of stumbling on words. When in doubt, say less.
- If anything is unusual, have the calling Official remain close during the announcement to remind you of pertinent information.
- Use the word “correction” to change a previous announcement: “Holding, Offense #65, Correction, #56.”
- When announcing time outs, you can refer to the team name.

- For unsportsmanlike conduct fouls, always tell whether it is the 1st or 2nd for that player/coach.
- When you are finished, turn the microphone off, pause, turn and jog to your next pre-snap position.
- Practice these principles in the following ways to improve and correct any mistakes:
 - Practice in front of a mirror, while talking out loud.
 - Watch replays of your games, when possible.
 - Say the words even in games you are not using a microphone.
 - Consider using a recorder during games to review later.

 - B. the ball is ready for play when the Umpire returns to his normal position after spotting the ball (without a ready-for-play signal or whistle from the Referee). Unless held in position by the Referee, the Umpire does not linger over the ball.
 - C. the Referee will re-set the play clock to 25-seconds (with a pumping motion with one arm with a flat palm upward) and follow the 25-second play clock procedure **if** he receives a signal from the Back Judge the ball was not ready for play with at least 25 seconds remaining on the 40-second play clock. The Referee will stop the game clock to re-set the play clock only if he deems there has been a delay in re-setting the play clock.

- II. The Referee will pick up the ready sign (open hand above head) from the ECO and PCO when they are in free kick positions, look for the ready sign by the Back Judge and then communicate to the Back Judge via radio to hand the ball to the kicker or signal by extending his arm toward the Back Judge with a clenched fist if radios are not used.
- III. Once the Back Judge reaches his free kick position and communicates he is ready via radio or gives the ready signal when radios are not used, the Referee will promptly give the ready-for-play signal (S #1) with a sharp blast of his whistle.
- IV. The Referee will make sure that kickers are in position before he blows the ready signal to avoid a delay of game foul.

 - C. If the Line Judge and Linesman have been moved up the field or positioned between the receiving and kicking teams' free kick lines in anticipation of an onside kick and a deep kick is made, the Referee will:
 1. remain on the receiving team's goal line.
 2. rule on touchback while standing on the goal line.
 3. be the only Official to wind the game clock on a free kick when the other Officials are in an onside kick formation and the ball is kicked deep.
 4. rule on whether the player's momentum took him into the end zone and mark the spot of the catch with a bean bag, if the kick is caught inside the 5-yard line and the player is downed in the end zone.

- C. be in his initial position on the goal line at the pylon, when the ball is snapped inside the defense's 45-yard line or when a receiving team member is on or inside the 10-yard line. ELECTRIC CLOCK OPERATOR (ECO) PLAY CLOCK OPERATOR (PCO)

The ECO holds the previous line of scrimmage until absolutely sure that spot is no longer relevant. (5 and 7 man). If clock control is wired, adjust to length of cord and ability to move down field around players and coaches; prior to the game, lay out the cord in the restricted area and test the clock operation.

If the clock is operated wirelessly, work from the sideline on the press box side of the field. Prior to game time, test the wireless remote operation from one end zone to the other. Make mental note of any dead zones to be avoided during the game.

When a Play Clock is used and operated by other than TSSAA Officials, there are no changes in ECO duties or mechanics. However, the ECO and Back Judge should monitor the Play Clock to ensure it is working and being operated properly. Inform the Referee of any discrepancies. If assigned by the local association, the ECO and PCO are required to be dressed in full uniform. **EXCEPTION:** For regular season games only, Supervisors/Assigning Officers are not subject to this requirement.

When both the Play Clock and Scoreboard Clock controls are wireless AND both are operated by TSSAA Officials, the following mechanics will apply:

- I. Both operators will work from the sideline on the press box side.
- II. The ECO will be initially positioned on the line of scrimmage, and the PCO will be initially positioned even with the Referee or deeper, **if** necessary, to have a clear view of the Linesman or Line Judge starting the Play Clock.
- III. When the play ends, the ECO moves up the field keeping a mental note of previous line of scrimmage.
- IV. When play ends, the PCO moves initially to the previous line of scrimmage and then to the pre-snap position keying the Referee, keeping a mental note of previous line of scrimmage.
- V. Both the ECO and PCO maintain position with a good view of the Referee.

The Referee will instruct the PCO to reset the play clock to 25 seconds by pumping one hand up and to 40 seconds by pumping both hands up.

Following the Pregame Coaches Conference, the ECO will ensure the game clock is set to expire at the kickoff time.

KICKOFF MECHANICS

- I. The ECO will be positioned 25 yards beyond the kicking team's free kick line in all situations.
- II. The PCO position is on the receiving team's 20-yard line with an unobstructed view of the Referee.
- III. The ECO and PCO will hold their open hand above their head to indicate to the Referee they are ready.
- IV. The ECO and PCO will stay on sideline until the Referee gives the ready for play and then back out of restricted area.

SCOREBOARD CLOCK MALFUNCTION

- I. The ECO stays on the press box sideline using a stopwatch with a countdown timer (this should be taken to each game).
- II. Use radio to communicate time remaining in the half.
- III. Confer with Referee on how often the remaining time is to be announced on the radio.
- IV. Notify Referee when 4 minutes remain in the half.

2:00 RULE AT END OF HALF

The ECO will radio the Back Judge and Referee when there are two minutes left in the half. If there is a subsequent foul, the ECO will monitor the radio to see **if** the offended team chooses to have the clock started on snap.

RUNNING CLOCK IN 2ND HALF (POINT DIFFERENTIAL OF AT LEAST 30)

There are only three times a running clock may be stopped:

- I. A charged Team time out
- II. Injury
- III. Score

On the kickoff during running clock situations, the clock starts when the ball is kicked. To start the 4th quarter, the clock will start on the snap.

During running clock situations, the PCO will not start the Play Clock until both teams are on the field and ready to participate. Also, the Play Clock will be held or reset to 25 seconds to prevent a delay of game penalty.

OVERTIME

- I. The ECO will secure the clock controls, wired or wireless.
- II. The ECO will attend the Officials meeting in the middle of the field.
- III. In conjunction with the Referee, the ECO will position himself on the line of scrimmage for all overtime plays. He will remain at the previous line of scrimmage until the ball is marked “ready” for the next play.
- IV. If a PCO is used, his position is on the sideline close to Referee.

OVERALL

The ECO is an important member of the crew. Responsibilities (including starting the clock on the Referee’s silent wind for 1st downs inbounds and after certain penalty enforcements) require the ECO to be in the game more than ever before. The ECO (and PCO) will work together with the Back Judge on clock and timing issues. Both the ECO and PCO should observe their respective clocks whenever they change the status, i.e., On to Off or vice versa. If the clock fails to respond, make note of the time when the malfunction occurred and notify the Back Judge.

INSTRUCTIONS FOR PLAY CLOCK OPERATORS

Before the Game

- Determine how you will set the play clock to 40/25 seconds.
- After testing the equipment, set the play clock to 25 for the start of the game.
- Advise Officials of any stadium-specific oddities in timing.

40-Second Clock

1. When the covering Official signals the ball is dead at the end of a play (inbounds, out of bounds, 1st down, incomplete pass, etc.), the play clock shall be set to 40 and started (after scanning the field to ensure no penalties). DO NOT wait for the ball to be spotted:
2. The play clock shall be set to 40 and started on the Referee’s signal when play resumes after an Official’s timeout related to a stoppage for:
 - injury of defensive players only
 - loss of helmet by defensive players only
 - equipment repair for defensive players only
 - administration of a penalty (accepted or declined) by the defense only

When in doubt, set to 40 – the crew will correct as necessary.

If the play clock needs to be reset to 40, the Referee shall signal (both palms up in an over-the-head pumping motion) to communicate the play clock shall be reset to 40 seconds and started immediately.

25-Second Clock

If an Official signals the game clock to be stopped for any of the following reasons, the play clock should be set to 25:

- Penalty administration for foul by the offense or offsetting penalties
- Timeout (team or media)
- Measurement
- Defensive/receiving team is awarded a first down (change of team possession)
- After a score (FG, TD, safety)
- After a try
- Start of each period
- Start of a team's series in an extra period
- Either team is awarded a new series after a legal kick
- Other unusual/administrative stoppages

In the above situations, the 25 second play clock will start on ready for play signal from Referee.

If the 40 second clock is running and the ball has NOT been spotted by 25 seconds, the Referee shall signal (one palm up in an over-the-head pumping motion) the play clock shall be set to 25.

Other Procedures

- Set the play clock to 25 on kickoffs and start it when the Referee gives the ready-for-play signal. We do not want Delay of Game fouls on kickoffs if they can be avoided, so the Referee and/or Back Judge may pump their arm to reset play clock if it's approaching 0.
- Reset the 40/25 second clock if ball is snapped when the play clock is close to zero -- RESET so the play clock does not show 0.
- Leave the play clock at 0 when the Back Judge drops a penalty marker for Delay of Game: we want the whole stadium to see 0. Reset to 25 after the Referee announces the penalty.

End of Periods

- Do not start the play clock at the end of a period if the game clock is (1) running or (2) will start when the Referee gives the ready-for-play signal, and the play clock is higher than game clock.
- The guiding philosophy is the play clock should run only if a delay of game foul is possible; if not possible, the play clock should be left at 25/40.

Overtime

- Throughout overtime, the 40/25 second play clock will continue to run as it did during regulation.

If Play Clock Fails During Game

- The play clock will be turned off until the problem is corrected.
- The Referee will notify both coaches the play clock will be kept by the Back Judge.
- The Back Judge shall raise and hold one hand overhead with 10 seconds remaining on the play clock and shall visually count down the last 5 seconds on the play clock.
- When the problem is corrected, the Referee will notify both coaches.
